Dear Prof. Krstačić**,**

Re: IACS-European Section Meeting in Zagreb.

I am taking this opportunity to thank you most sincerely for inviting me to the conference under your chairmanship. I thought both scientific and social programs were of high quality and I was more than satisfied to see that all the participants enjoyed. Indeed, you did an outstanding job in putting together a highly successful program and thus, I wish to extend my heartiest congratulations to you. The courtesies which you extended to me and my wife Ranjit are highly appreciated. Your organizing a special audience with the President of Croatia was truly a highlight and I hope you were satisfied with our discussions. Once again, please accept my thanks and I am grateful for your efforts in making this conference an enjoyable experience.

With my best regards,

Naranjan S. Dhalla, PhD, MD (Hon), DSc (Hon)
